EMPLOYEE BENEFIT SOLUTIONS

## Employee Benefit Solutions

Human Resource Management, Inc. can help you evaluate your current employee benefit programs to ensure market competitiveness and to maximize your return on investment. Through our broker relationships we can introduce flexible, alternative ways for you to increase your buying power and explore outsource options for employee benefits, payroll, and insurance administration. Our strategic alliance network makes nationwide delivery of service and benefit coverage simple and affordable.

The Smart Benefit System

Utilizing the latest web technology, we can simplify and automate most enrollment and administration functions by providing clients a custom, interactive, self-serve website and benefits communications system designed specifically to heighten employee benefit awareness, increase HR productivity, assist in the hiring process, streamline enrollments, increase retirement plan participation, and automate new employee orientation and enrollment.
